# Presentation

## **Redefining towels**

Towels are always by your side in everyday life and an essential existence, almost like air. In Japan, "towel" has the broad meaning of a pile weave cloth. Rather than simply absorbing perspiration and water, they provide softness, gentleness, and delight when touching the skin.

## **The key to manufacturing is obtaining the best materials**

Uchino believes that the ultimate in manufacturing is to integrate all processes at the location where the finest cotton can be acquired.

We ensure excellent quality and safety by supervising everything ourselves and continually innovating technology. Over the years and still today, Uchino is confident that this corporate philosophy is imperative in leading the global market.

Uchino researches and develops towels from every possible angle everyday. Besides developing materials and researching manufacturing technologies, we have taken a step further, extending to medical science and ergonomics. With the cooperation of authoritative figures in these fields, we have pursued even better quality and comfort. This is because more than anything else, we wish for you to savor the pleasure and happiness of using our towels.

## Quick Dry Towel

**8825B847** (65cm×130cm)  
Bath Towel (26in×51in)

**8816B847** (50cm×100cm)  
Hand Towel (L) (20in×39in)

**8808F847** (34cm×80cm)  
Hand Towel (S) (13in×31in)

◆ B, P, DV, W, BE, GY, DB

◆ 100% cotton

◆ Made in China

This towel is made with quick-dry structure, lightweight yarn and antibacterial deodorization. Lightweight yarn is used for a soft touch. The gaps between fibers were calculated to increase breathability for good ventilation.

This unique manufacturing method allows a quick drying after washing and further suppresses unpleasant odors through antibacterial and deodorant processing.

Hand Towel (L) (60cm×100cm)  
(24in×39in)

### 8813F843 (P, B)

Hand Towel (S) (34cm×85cm)  
(13in×33in)

### 8806G563 (W, BE, GY) / 8807G843 (P, B)

Wash Cloth (34cm×40cm)  
(13in×16in)

- ◆W, BE, GY, P, B
- ◆100% cotton
- ◆Made in Japan

Woven using light, airy and soft hollow yarn only. The soft texture and lightness as if spun with air are appealing. The waffle texture woven only with hollow yarn captures air in the loose contours, making this very light and soft. Because the surface coming in contact with skin is minimal, this has a fresh feel.

## Horizontal Ridge Pile

**8850B718** (70cm×140cm)  
Bath Towel (28in×55in)

**8832B725** (60cm×100cm)  
Hand Towel (L) (24in×39in)

**8820F718** (34cm×85cm)  
Hand Towel(S) (13in×33in)

**8810G718** (34cm×40cm)  
Wash Cloth (13in×16in)

- ◆W
- ◆100% cotton
- ◆Made in Japan

We created a liberal texture by arranging pile into ridges. Thicker yarn with a count of 16 was used and woven so that pile emerged alternatively on the front and back of the towel. The feel is dense, firm, voluminous, lush and dry. This towel will nicely stimulate the skin while thoroughly absorbing moisture.

## Airy Feel

**8825B593**  
Bath Towel (70cm×140cm)  
(28in×55in)

**8808F593**  
Hand Towel (S) (34cm×85cm)  
(13in×33in)

**8807G833**  
Wash Cloth (34cm×40cm)  
(13in×16in)

- ◆W
- ◆100% cotton
- ◆Made in Thailand

Ultra thin zero twist yarn is used for the terry loops, and very thin yarn was woven densely to create this towel with a completely new feel. The texture is soft like feathers, yet has a nice firmness.

## Charcoal Series

### Kishu Binchotan

**8860L558** (70cm×140cm)  
Bath Towel (28in×55in)

**8835B558** (50cm×100cm)  
Hand Towel (L) (20in×39in)

**8812G558** (34cm×40cm)  
Wash Cloth (13in×16in)

- ◆BK, LGY
- ◆87% cotton 13% rayon
- ◆Made in Japan

LGY

Woven with a yarn made of cotton and rayon with fine charcoal powder kneaded in. The kneaded-in charcoal naturally turns this towel grey or black. The microscopic pores on the surface of the charcoal absorb odor molecules, and give such excellent odor-eliminating properties. The absorbed molecules are removed during laundering and drying, so effect lasts through repeated use.

### Sumi Gauze & Pile

**8826B561** (50cm×100cm)  
Hand Towel (L) (20in×39in)

**8805G561** (34cm×40cm)  
Wash Cloth (13in×16in)

- ◆GY
- ◆86% cotton 14% rayon
- ◆Made in Japan

Gauze that is gentle to skin using yarn made of cotton and rayon with fine charcoal powder kneaded in. The microscopic pores on the surface of the charcoal absorb odor molecules for excellent odor-eliminating properties. The absorbed molecules are removed during laundering and drying, so effect lasts through repeated use.

### ZEN Charcoal Gauze & Pile

**8810L772** (90cm×180cm)

The komon pattern is distinct for its fine repeated pattern that looks solid from a distance. The design feels stylish and modern, and has been used for kimono in Japan through the ages. We printed the komon pattern on the gauze side. The terry loop side was woven with Uchino's Original Zero Twist yarn for a fluffy and soft texture that will absorb moisture at a touch. The gauze and terry loop double-face makes it easy to dry and increase in comfort with use.

## Organic Cotton (limited collection)

◆ R, BG, DGY

◆ 100% cotton

◆ Made in Japan

Only cotton grown organically in fields that have been cultivated without pesticides for three years or more is certified to be organic. This in turn lessens the burden on the environment.

This organic cotton is spun into yarn and woven into towels of various colors, that can be used with reassurance for babies and people with sensitive skin who want to experience the natural softness of natural cotton.

This item is certified OEKO-TEX.

Oeko-tex® Standard 100 is an international safety standard for textile products, established by the international Oeko-tex® Association. Products certified by Oeko-tex® are confirmed to be free of chemicals that are hazardous or possibly hazardous to the human body.

Bath Mat (24in×35in)

◆ OW

◆ 87% cotton 13% cashmere

◆ Made in Japan

This is a blend of thin, soft, cashmere down and extra-long cotton. Because this only used hair that fell out naturally, there is very little fiber irritation. The soft feel and excellent heat-retaining properties make this perfect for lap blankets or scarves. To feature the natural color and softness of the cashmere, this was woven without bleaching. The cashmere naturally turns this towel ivory.

## Stretch Towel (limited collection)

**8620H381** (40cm×90cm)  
Hair Towel (16in×35in)

◆ W, BK

◆ 98% cotton 2% polyurethane

◆ Made in Japan

Stretch material is familiar in shirts and athletic wear, and we have innovatively applied this to towels. We wove stretchy polyurethane fibers into part of the ground structure so it can stretch 150-200% vertically. It fits perfectly to securely hold up wet hair after washing or dyeing. The terry loops are 100% cotton, so they absorb water well. This is a wondrous towel that feels like 100% cotton, yet stretches like elastic.

A white bathrobe is folded and tied with a white belt, positioned in the upper right quadrant. To its left, a white bath mat is partially visible. The background is a light, neutral color.

## **SANDALS AND BATH MAT**

V

Soft, thin yarn was woven into three layers to create astonishingly soft, light, innovative gauze material.

The excellent absorbency, breathability, and heat retention will keep you comfortable in your clothes. We applied yarn dye which has a distinctive rich color.

# Tips for Towel Care

---

## When washing

Washing with a generous amount of water so towels can fully submerge will facilitate cleaning and prevent shed fluff from adhering to the towels.

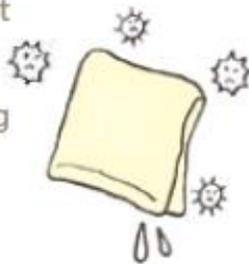

Use softener only when you feel the towel has hardened.

Using softener too often will decrease the towel's absorption and cause shedding of fluff.

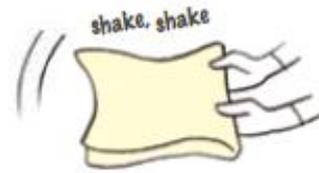

If a wet towel is neglected, bacteria will breed and cause an unpleasant odor.

We recommend that towels are washed frequently and hung to dry immediately after washing.

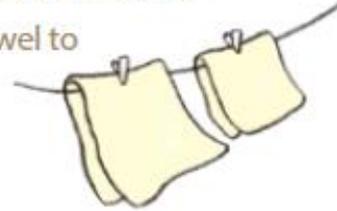

## When drying

Before hanging towels to dry, shake them out ten to twenty times. The flattened pile will return to their original state and the fluffy feel will last longer.

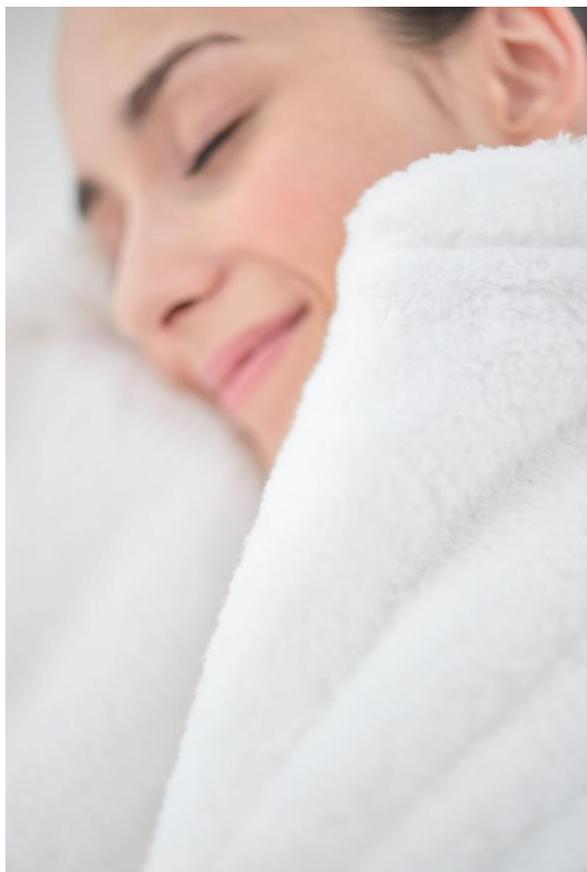

Hang towels in a well-ventilated area in the shade. Drying them in the sun will cause color to fade and towel to harden.

Using a front-loading washer-dryer to dry is effective for restoring the pile flattened by washing and extending the life of the fluffy feel.
