Redefining towels

Towels are always by your side in everyday life and an essential existence, almost like air. In Japan, "towel" has the broad meaning of a pile weave cloth. Rather than simply absorbing perspiration and water, they provide softness, gentleness, and delight when touching the skin.

The key to manufacturing is obtaining the best materials

Uchino believes that the ultimate in manufacturing is to integrate all processes at the location where the finest cotton can be acquired. We ensure excellent quality and safety by supervising everything ourselves and continually innovating technology. Over the years and still today, Uchino is confident that this corporate philosophy is imperative in leading the global market.

Uchino researches and develops towels from every possible angle every day. Besides developing materials and researching manufacturing technologies, we have taken a step further, extending to medical science and ergonomics. With the cooperation of authoritative figures in these fields, we have pursued even better quality and comfort. This is because more than anything else, we wish for you to savor the pleasure and happiness of using our towels.

The komon pattern is distinct for its fine repeated pattern that looks solid from a distance. The design feels stylish and modern and has been used for kimono in Japan through the ages. We printed the komon pattern on the gauze side. The terry loop side was woven with Uchino's Original Zero Twist yarn for a fluffy and soft texture that will absorb moisture at a touch. The gauze and terry loop double-face makes it easy to dry and increase in comfort with use.

TTM20933	69 x 90 cm
Bathmat	(24 x 35 in)

◆ Off White ◆ 87% cotton, 13% cashmere

◆ Made in Japan

This is a blend of thin, soft, cashmere down and extra-long cotton. Because this only used hair that fell out naturally, there is very little fiber irritation. The soft feel and excellent heat-retaining properties make this perfect for lap blankets or scarves. To feature the natural color and softness of the cashmere, this was woven without bleaching. The cashmere naturally turns this towel ivory.

Horizontal Ridge Pile

We created a liberal texture by arranging pile into ridges. Thicker yarn with a count of 16 was used and woven so that pile emerged alternatively on the front and back of the towel. The feel is dense, firm, voluminous, lush and dry. This towel will nicely stimulate the skin while thoroughly absorbing moisture.

Extra-long staple cotton fibers were spun into exceptionally fine zero-twist yarn and woven into exquisitely soft pile like marshmallows. It instantly absorbs moisture and dries quickly.

Stretch Towel (limited collection)

8620H381	40 x 90 cm
Hair Towel	(16 x 35 in)
◆ White or Black	◆ 98% cotton, 2% polyurethane
◆ Made in Japan	

Stretch material is familiar in shirts and athletic wear, and we have innovatively applied this to towels. We wove stretchy polyurethane fibers into part of the ground structure so it can stretch 150-200% vertically. It fits perfectly to securely hold up wet hair after washing or dyeing. The terry loops are 100% cotton, so they absorb water well. This is a wondrous towel that feels like 100% cotton, yet stretches like elastic.

A white bathrobe is folded on a white bathmat. A pair of white slippers is visible at the bottom of the frame. The background is a plain white wall.

ACCESSORY

By carefully choosing quality materials and using special manufacturing methods, we create products of a higher grade, with luxurious comfort.

Marshmallow Gauze Reversible Throw

6009AN77

140 x 100 cm
(55 x 39 in)

- ◆ Ivory or Grey
- ◆ 100% cotton
- ◆ Made in Thailand

We used proprietary technology to weave fine-count zero-twist yarn into triple-layer gauze for this reversible throw. Experience the fluffy lightness and astonishingly gentle feel like marshmallow. The large size is convenient not only as a light blanket, but also as furniture cover. It is easy for carrying since it is thin and light.

A pair of white, textured gloves is shown against a light green background. The gloves are positioned with one hand on top of the other, showing the fingers and palms. The texture appears to be a fine, woven fabric. A semi-transparent white box with a thin black border is centered over the gloves, containing text.

BABIES AND KIDS

Easy to wear and take off with strict quality standards, safe and reassuring even for babies' mouth.

Tips for Towel Care

When washing

Washing with a generous amount of water so towels can fully submerge will facilitate cleaning and prevent shed fluff from adhering to the towels.

When drying

Before hanging towels to dry, shake them out ten to twenty times. The flattened pile will return to their original state and the fluffy feel will last longer.

Use softener only when you feel the towel has hardened.

Using softener too often will decrease the towel's absorption and cause shedding of fluff.

Hang towels in a well-ventilated area in the shade. Drying them in the sun will cause color to fade and towel to harden.

If a wet towel is neglected, bacteria will breed and cause an unpleasant odor.

We recommend that towels are washed frequently and hung to dry immediately after washing.

Using a front-loading washer-dryer to dry is effective for restoring the pile flattened by washing and extending the life of the fluffy feel.
